They ..... The table.

5-What does his sister do?

She ..... the table after lunch.

6-What does his grandfather do on Yalda Night?

He reads the ..... of .....

Everything that is alive needs energy. All animals get the energy they need from **food**. People are animals. Think about the human body as an amazing machine. It can do all kinds of things for us. Food is the **fuel** that helps keep the amazing machine running.

Plants use sunlight to make their own food. Animals are not able to do that. Some animals eat plants. Some animals eat other animals as meat. Some animals, like people, eat both plants and animals.

Since plants make their own food using sunlight, the sun's energy is found in plants. The sun's energy is very strong. It loses a lot of its strength by the time it goes into a plant.

When we eat plants, we get more of the sun's energy than when we eat animals. That's why it is good to eat fruits and vegetables. When an animal eats a plant, the energy is less strong. The animal also used its energy to find the plant to eat. When a second animal eats the first animal, it gets even less energy than the first animal got. The second animal used a lot of energy to chase its prey.

Like a car that has to be filled with gasoline, living things have to eat again and again. Instead of gasoline, living things use food as fuel.

You may think you are really good at using the English language. This may be so, but you still need to practice. To use any language well, you have to practice listening, speaking, reading and writing.

Most students read and write in class. Those are both taught in school, so you practice reading and writing often.

You might think you speak well. You may. Still, you may not always say things in a way that helps people understand what you mean. Think about what you will say before you speak out loud in class. When you talk in front of the class, use a nice, loud voice so that everyone in the class can hear you.

Some people are better at listening than others. Everyone can use some practice. When someone is speaking, give the person your full attention. Turn and look at the speaker. Focus on what the speaker is saying instead of what you plan to say next.

1) Where do all animals get their energy?

\_\_\_\_\_

2) Where do plants get their energy?

\_\_\_\_\_

3) If our bodies are amazing machines, then food is our \_\_\_\_\_.

4) Why do we get more energy from eating vegetables than we get from eating meat?

\_\_\_\_\_

5) If a third animal eats the second animal, will it get more or less energy?

\_\_\_\_\_

1) What four things do you need to practice to use English well? \_\_\_\_\_

\_\_\_\_\_

2) Which of those things do you practice the most at school? \_\_\_\_\_

\_\_\_\_\_

3) What is one thing you can do to practice speaking? \_\_\_\_\_

\_\_\_\_\_

4) What is one thing you can do to practice listening? \_\_\_\_\_

\_\_\_\_\_

5) Which do you need to practice more, listening, or speaking? \_\_\_\_\_

\_\_\_\_\_
