Reading Comprehension (2.5 points):

Computers are good tools. The Internet is also good. But some people spend too much time online. They can't stop. Doctors say this is a new sickness. They call this sickness Internet Addiction Disorder (IAD). People with IAD are online a lot. They spend hours instant messaging their friends or playing online games. Many people with IAD spend more time on the Internet than with family or friends. Some people with IAD even quit their jobs!

Do you have IAD? Think about these questions. How many hours a day are you online? Is it a lot or a little? When you are not online, are you thinking about playing a computer game or checking your messages? When you are online, do you forget the time? Do you get angry when you can't play a game?

If you have IAD, what can you do? Dr. Ivan Goldberg and Dr. Kimberly S. Young have some ideas. First, ask yourself, "Why am I online a lot?" Then try to take a break. For example, use the computer or play games twice a week. In this way, you can have a good social life with other friends.

52. What is the passage mainly about?

54. Which is NOT a sign of IAD?

- a) quitting your job to spend more time online c) thinking about checking your messages
b) spending time with family and friends d) getting angry when you can't play a game

55. Ivan Goldberg and Kimberly S. Young _____.

- a) are online a lot b) have IAD c) help people with IAD d) cannot help people with IAD

56. What do we learn from this passage?

- a) IAD is not a big problem. c) Internet games are bad.
b) We cannot help people with IAD. d) Computers can be good and bad.
