J. Read the passage

One good way to have a better lifestyle is having healthy relationships with others. Recent research has shown that a good social life decreases the risk of death. Sadly, some people do not visit their relatives very often these days. They are so busy with their work and usually use technology to communicate.

Bad habits and addiction can be harmful to health. One day of smoking can take around 5 hours away from the smoker's life. Addiction to technology such as using computers for a long time is also dangerous. Above all, the most important thing for having a good life is having emotional health. Praying decreases stress and gives people a calm and balanced life. People with this lifestyle have had a better life.
